PRESS RELEASE

Leaf collection in Wenham will begin November 3th with one to two passes of loose leaf pick-up followed by a bagged leaf pick-up in December, if needed. The Wenham Department of Public Works will start the loose leaf pick-up on the west side of town with Maple Street at the Danvers Town Line and continue down Maple picking up the side streets, i.e. Birch, Burley, Puritan, Mayflower etc. At Topsfield Road, the DPW will head easterly, picking up all side streets and then westerly to the Hilltop Road/Burnham Road area. The DPW will continue to Cedar Street, then Cherry Street and all side streets off Cherry to Route 1A. The department will then jump to the easterly side of town at Grapevine and the Beverly line. From there, the DPW will head westerly down Grapevine Road, picking up all side streets. The DPW will continue on to Dodges Row, Walnut Street and Larch Row to Route 1A, then Fairview, Patti, Fiske, Lake, and Great Pond roads. Lastly, the DPW will pick-up Main Street, Arbor Street, Perkins, Porter and all side streets. This loose Leaf pick-up will conclude by December 12th. If needed, a bagged leaf pick-up will be conducted on Monday, December 15th. In the event that we receive a significant snowfall, a bagged leaf pick-up will be conducted in the spring. All leaves must be placed curbside in PAPER BAGS or open trash barrels by 7:00am. No plastic bags are allowed. Please contact the Wenham DPW with any questions at 978-468-5520 Ext #6.

The DPW makes every effort to pass through each street twice, but due to the uncertainty of the weather this time of year, it is not always possible. Check the town website for updates. (Unfortunately, we are not able to predict an exact day we will be on a certain street.)
