

## **CodeRED Call – January 27, 2021**

Hi, this is Jackie Bresnahan, Director of Administrative Services for the Town of Wenham calling to share an important message regarding our CodeRED Emergency notification system.

The state will be moving into Phase 2 of the vaccination distribution schedule next week, which begins with residents ages 75 and over or those with 2 or more comorbidities. Wenham residents will have a local drive thru option in town and numerous other state sponsored sites throughout the North Shore.

We will use our CodeRED Emergency Information system to inform residents via robocall, email or text message when registration is open within each new phase.

In order to ensure that your data is accurate in our emergency notification system, we encourage you to go to [wenhamma.gov](http://wenhamma.gov) and click on the CodeRED logo located at the bottom of the page, or text WENHAM to 99411 from your mobile phone, and enter the requested contact information, including any additional phone numbers for texts or email addresses for updates. If you received this message via all preferred contact methods, you do not need to take any additional action.

If you do not have Internet access, call the COA at 978-468-5529 for assistance in adding your preferred contact information to the list.

We will be in touch very soon to notify residents of vaccine updates through CodeRED and at [wenhamma.gov/covid](http://wenhamma.gov/covid).

Thank you.
