

## WATER DEPARTMENT

### MANDATORY WATER CONSERVATION

Effective June 22, 2009, the watering ban in the Town of Wenham has been modified to allow sprinklers between 5pm and 9am. The recent rainfall has brought the Ipswich River water flow above the mandatory water ban level. Although conservation is always necessary and encouraged, the Board of Water Commissioners voted to relax the ban in accordance with the Water Conservation By-law and in compliance with our withdrawal permit issued by the State, which mandates no sprinklers allowed between 9am to 5pm, hand watering is allowed. The mandatory water conservation is in effect from May 1 to September 30 and includes private wells. We would like to thank all residents for their understanding and cooperation.
