HYDRANT FLUSHING NOTICE

On Monday, October 23, 2017, the Wenham Water Department will begin flushing fire hydrants. Flushing is expected to continue thru November 10, 2017 and will be conducted between the hours of 8am and 2pm. Please be advised that you may experience a drop in water pressure as well as some discoloration of the water during this process. The discoloration of the water is only temporary and does not indicate a problem with the water. If your water does become discolored, turn on an outside faucet to clear the water line before doing any laundry or cleaning. The Water Department will continue to monitor the water quality during this period to ensure that the water remains safe to drink. We apologize for any inconvenience this may cause, but flushing is an important part of our system maintenance. Please contact Erik Mansfield, Wenham Water Superintendent at (978)468-5520 ext.6 with any questions or concerns you may have.
