1. All material and work must conform to "The Wenham Water Department Standard Specifications."
2. The Water Superintendent must be notified prior to any work being performed on any water main, service pipe or appurtenance.
3. Service connections require a separate application. All service taps will be made by the Wenham Water Department.

I hereby agree to install and pay for this water main extension in accordance with the rules and regulations now in force or to be established by the Wenham Water Department. I further agree to indemnify and hold harmless, the Town of Wenham, its employees and its representatives from any claims, damage liability or expense in any way arising out of said excavation and installation. I have read and understand the "Standard Specifications".
