MEMORANDUM

TO: Board of Selectmen
FROM: Peter Lombardi, Town Administrator
RE: Town Administrator's Report
DATE: January 15, 2019

Personnel

Our Library Director, Jan Dempsey, will now be retiring after Town Meeting in early April, a few weeks later than she had originally planned on. At their meeting last week, the Library Board of Trustees appointed a 9-member Screening Committee which will meet for the first time next week. The position has been posted, with applications due by February 12 and initial interviews to follow shortly thereafter. We still plan to have the position filled on a permanent basis sometime in late April or early May.

Main Street Traffic Project

Bayside Engineering is now under contract to complete survey work, develop a base plan, and evaluate environmental permitting requirements for the Town as part of the first phase of engineering work for this project. They began survey work on site today.
